Inspection Picture of the Month:

How do you know when the gutters need cleaned? When something is growing out of them... Everyone hates to clean gutters. Drag out the ladders, and risk your life to clean out a few leaves.

However, the lack of proper working gutters and downspouts can be the source of significant damage to siding and the home. In our area, it can also lead to foundation problems and settlement issues, due to the clay soils we have in this area.

The leaves are starting to change and fall. The gutters are filling up. It is time to start cleaning out gutters, to prevent further moisture damage to the home.
